PRESENTATION OF A SCIENTIFIC PUBLIC REPORT

The Tenant Experience in Luxembourg's Private Rental Market

ABSTRACT

What is the tenant experience like in Luxembourg? What challenges does a tenant face in accessing rental housing, during the lease, and when moving out of a rental unit? This presentation will summarize the findings of a scientific public report analyzing the experiences of almost 300 tenants. Discover firsthand accounts about Luxembourg's rental market and find out about the biggest problems tenants faced.

Join us as the research team behind the report outlines key findings and possible paths to improve the tenant experience, and hear from the tenants' protection association that commissioned the report. The presentation is open to the public and information about the report will be available in English and French.
